FLOOD CONTROL FUNDS

1967 Report to the Legislature

JANUARY 1968

RONALD REAGAN
Governor
State of California

WILLIAM R. GIANELLI
Director
Department of Water Resources

FOREWORD

Bulletin No. 158-67 covers the activities of the Department of Water Resources and the Reclamation Board with respect to the expenditure of state flood control funds under the provisions of the Flood Control Law of 1946 and the California Watershed Protection and Flood Prevention Law. A report to each regular session of the Legislature is required by Sections 12830 and 12875 of the Water Code. This report covers the period January 1, 1967, through December 31, 1967.

During 1967, the Department issued reallocation orders in a net amount of \$12,193,805.92. These funds were paid to local flood control agencies to reimburse them for the costs of rights-of-way and relocations required for authorized federal projects. The Reclamation Board itself spent \$4,971,249 for rights-of-way and relocations for its projects in the Central Valley. This year's expenditures bring the Department's total expenditures to \$101,440,577 since the present program began in 1946. The Reclamation Board has expended \$ 89,517,936 since its program began in 1917.

THE DEPARTMENT OF WATER RESOURCES PROGRAM

The reporting period covered the last half of fiscal year 1966-67 and the first half of fiscal year 1967-68. The 1966 Budget Act appropriated \$15,000,000 and the 1967 Budget Act appropriated \$11,250,000 for support of the Department's program. Both appropriations were on a lump sum basis. The lump sum appropriation was adopted in the 1965 Budget Act because of the historic disparity in amounts budgeted by specific line items for projects as compared to amounts actually claimed. This procedure eliminates the necessity for budgeting specific amounts for specific projects and results in a reduced obligation on the General Fund. The projects eligible for state financial assistance are detailed in the Governor's budget

Since the Department's program is based on reimbursing local flood control agencies for their eligible costs, a procedure for protecting and controlling the distribution of state flood control funds has been developed. This procedure provides that claims for reimbursement of expenditures, or for payment of obligations incurred by local agencies in carrying out the requirements of local cooperation, shall be submitted to the Department. All claims are subject to review and report by the Department's engineering and legal staffs, and field audit report by the Controller's Office.

During 1967, the Department issued 137 reallocation orders in a net amount of \$12,193,805.92. The amounts paid for individual projects are shown in Table I, "Summary of 1967 Payments". The reallocation orders issued during 1967 are shown in Table II, "Reallocation Orders Issued During 1967". Copies of the reallocation orders are on file in the Department. With \$89,246,771 reallocated from 1946 through December 31, 1966, the Department's total expenditures under this program are \$101,440,577.

THE RECLAMATION BOARD PROGRAM

The State Legislature allocated \$4,608,731 to the State Reclamation Board through the 1967 Budget Act for state cooperation on federal and state approved major Corps of Engineers' flood control projects within the Sacramento and San Joaquin Valleys and tributary areas.

The primary duties of the Reclamation Board are: Provide without cost to the United States all lands, easements, and rights-of-way necessary for the construction of major projects, and provide assurances to hold and save the United States free from damage due to the construction works, and that project works will be maintained and operated in accordance with federal regulations.

The Reclamation Board reports that the following expenditures have been made from moneys allocated to it from the General Fund for the period from January 1, 1967, through December 31, 1967.

Name of Project	Flood Control Expenditures	
	January 1, 1967 to December 31, 1967	Project Total
Sacramento River and Tributaries Flood Control Project	\$ 399,098	\$48,231,437
San Joaquin River and Tributaries Flood Control Project		
Federal	621,754	6,595,620
State	1,152,967	23,986,856
Buchanan Reservoir	27,929	31,034
Hidden Reservoir	23,265	27,204
Calaveras River & Littlejohn Creek and Tributaries (Bear Creek)	116,885	3,221,956

Name of Project	Flood Control Expenditures	
	January 1, 1967 to December 31, 1967	Project Total
Mormon Slough Flood Control Project (1)	\$1,218,032	\$ 1,719,529
Sacramento River Bank Protection	1,411,319	5,704,300
	\$4,971,249	\$89,517,936

- (1) Expenditures of \$501,497
were inadvertently omitted
from report submitted for
previous Bulletin 158

Since the Flood Control Act of 1917, which contained the initial federal appropriation for the Central Valley, the Reclamation Board has acquired the necessary lands, easements, rights-of-way, provided for the relocations of all public utilities, private pump and appurtenances, and reconstructed public and private bridges for the approximate 1,500 miles of levees, canals, bypasses, channel improvement, and pumping plants constructed to date.
